11TH RAKMHSU CAREER FAIR

10TH NOVEMBER 2021

"Planning is nothing, if you don't follow
through with it"

- Carol Mathias

Welcome Message

We welcome you to the 11th RAKMHSU Career Fair. This event seeks to assist our students in developing and managing their professional and academic endeavors.

The 11th RAKMHSU Career Fair hosts a range of national and international exhibitors with the aim of providing our students with an opportunity to avail of updates about potential career paths. Experts in the field will make presentations and provide our senior students with insights of the rules and regulations, licensing examinations and career prospects in the Governmental and Private Sectors in the U.A.E. and abroad. In addition, members of the RAKMHSU Alumni Association will share their experiences with internship, licensing examinations, postgraduate training and the world of work, and advise their juniors on the same.

We extend our appreciation to our distinguished guests for sharing their valuable time and experience with us today. We also extend our sincere gratitude to the President of RAKMHSU, the Deans, the Faculty & the RAKMHSU Administrative team for their support and cooperation.

Team of the RAKMHSU Office of Student Affairs

MOTIVATING MESSAGES FROM SOME OF OUR WONDERFUL GRADUATES!!

"Dream fueled by passion" - Becoming a doctor was a dream but being one, is an ignited passion. All it takes to be a good one is communication! And then walk the talk. Address your patients concerns before you treat the cause, don't just jump to differential diagnoses (P.S.:This doesn't apply to ER!) The only key to success is a patient-oriented approach. Skills? Keep Practicing! Best wishes young doctors, gain wisdom from your teachers! And remember, in the words of Tim Notke, "Hard work beats talent, when talent doesn't work hard".

Maria Monik Rathna, RAKCOMS 2016 Graduate

Choosing RAKCODS was one of the best decisions in my life as well as my career path. The college days were just unforgettable as I learnt many things from my experiences while I was in the university whether it be academics, friends, life goals and lessons. This was a platform to meet different people, interact with them, learn about their cultures and grow as a person. The college helped me mold my personality and clarified my vision of the future with the help of the Almighty, and an immense support from faculty and colleagues. My journey in RAKCODS was 6 years long including my internship and I am now a part of the teaching faculty. I am very grateful and cherish every memorable moment I experienced, and continue to look forward to an amazing future ahead.

Sadiqa Razack, RAKCODS 2019 Graduate

Looking back at my days at RAKMHSU I realized we weren't only educated about our respective fields, but we also learned lessons that paved our path to success. We learned how to not divert from challenges but rather see them as opportunities to reach our full potential and overcome our fears. We learned how to never take life for granted and seize what it hands us. And most importantly, we learned that success is to be measured not so much by the position that one has reached in life as by the obstacles which he has to overcome while trying to succeed. So work hard because success is not final and failure is not fatal, it's the courage to continue that counts.

Manar Samir Debe, RAKCOPS 2020 Post-graduate

I have been a cardiology nurse for more than 8 years. My passion for nursing led me to RAKMHSU. Because my top priority is meeting the needs of my patients by implementing evidence-based practice, I decided to join the Master of Science of Nursing with Adult and Gerontology speciality. This program gave me the opportunity to sharpen my skills and gain in-depth knowledge about nursing science. With the guidance of the world-class faculty members in RAKMHSU, I am currently working on publishing my first experimental study and I started my speciality degree to become a clinical nurse specialist in cardiology. My advice for all students is: 'Always dream big, work hard, be confident and never stop learning'.

Soufiane Roussia, RAKCON 2021 Postgraduate

ENJOY THE CAREER FAIR!
