9Th Pedia Dubai

INTERNATIONAL PEDIATRIC
CONFERENCE

In Collaboraton With RAKMHSU & Amina Hospital

«Trends, Solutions and Innovations
in Pediatrics and Neonatal Healthcare»

Welcome Message

Dear Colleagues and Friends

It is our prodigious pleasure to invite you to the 9th Pedia-Dubai International Conference In Collaboration With RAK Medical & Health Sciences University (PEDIA DUBAI).

Over the three days of the conference, the organizing, scientific committees and your international and local distinguished speakers colleagues will make the Themes of 9th Pedia Dubai "Trends, Solutions and Innovations in Pediatrics and Neonatal Healthcare" a reality.

This prestigious 9th Pedia Dubai will offer a comprehensive and stimulating series of plenary lectures, subject update and debate, meet-the-expert sessions, and educational workshops that will be new challenges in our conference events. These sessions will provide the opportunity not only to renew and inspire your scientific knowledge, but also to actively discuss the controversies in the field of paediatric neurology, nephrology, emergencies, critical care, pulmonology, nutrition, and neonatology.

Conference invites Physicians, dieticians, Nutritional Specialists, registered nurses, nurse practitioners, nurse midwives, physician assistants, educators, pharmacists, and other healthcare professionals interested in the nutritional requirements of preterm infants and paediatric patients. We aim to provide plenty of opportunities to interact and network with each other.

The selection of this event time on 10th - 11th December 2020 and venue at Swissôtel Al Murooj Dubai join both the wonderful winter weather and the amazing place for shopping and traveling.

We cordially welcome you to Dubai, pearl of the gulf and beautiful city of UAE and we are sure you will have fruitful and memorable experience in science and tourism.

Dr. Sherif Mosaad

A handwritten signature in blue ink, appearing to read "Sherif".

Dr. Mamdouh Swilem

A handwritten signature in blue ink, appearing to read "M. Swilem".

Welcome Message

Dear Colleagues and Friends,

In this day and age, it is imperative that we can sustain and empower the exchange of knowledge, technology, and the implication that they have in our society. Even more so, Medical Sciences have an enormous potential to grow and flourish, touching the lives of millions and building the new health paradigm that our dynamic society is facing.

It is why, it is our honour and privilege to welcome you all to join us at the 9th Pedia-Dubai International Conference on "Trend, Solution and Innovations in Pediatrics and Neonatal Healthcare".

Amina hospital has honor and pleasure to contribute in the elegant conference .and we are proud that Dr. Sherif Mosaad (HOD) consultant pediatrician & Neonatologist in Amina hospital is President of the this Fruitful conference and we hope next year will be collaboration and support.

We look forward to having the pleasure of coinciding with you and create a medium of cooperation and exchange of ideas that will help strengthen and enrich our current global health system, even helping it transition to the brave new health paradigm for the greater good.

Dr.Raja Sekhar Gujju

CEO Anglo Arabian Healthcare Group

Mohamed Ali Al Omari

COO Anglo Arabian Healthcare - NE

Dubai is the most populous city and emirate in the United Arab Emirates (UAE), and the second largest emirate by territorial size after the capital, Abu Dhabi. Dubai is located on the southeast coast of the Persian Gulf and is one of the seven emirates that make up the country. Abu Dhabi and Dubai are the only two emirates to have veto power over critical matters of national importance in the country's legislature. The city of Dubai is located on the emirate's northern coastline and heads up the Dubai-Sharjah-Ajman metropolitan area.

Dubai is to host World Expo 2020. Dubai has emerged as a global city and business hub of the Persian Gulf region. It is also a major transport hub for passengers and cargo. By the 1960s Dubai economy was based on revenues from trade and, to a smaller extent, oil exploration concessions, but oil was not discovered until 1966. Oil revenue first started to flow in 1969. Dubai's oil revenue helped accelerate the early development of the city, but its reserves are limited and production levels are low today, less than 5% of the emirate's revenue comes from oil.

the emirate's Western-style model of business drives its economy with the main revenues now coming from tourism, aviation, real estate, and financial service.

dubai has recently attracted world attention through many innovative large construction projects and sports events. The city has become symbolic for its skyscrapers and high-rise building, in particular the world's tallest building, the Burj Khalifa. Dubai has been criticized for human rights violations concerning the city's largely South Asian workforce.

Conference Board

Dr. Abdullah Al Khayat

Honorary President of the Conference
CEO of Al Jalila Children's and Speciality
Hospital, Dubai.

Dr. Sherif Mosaad

Chairman of The Conference
HOD of pediatrics & neonatology
